The National Conference on Emerging Trends in Engineering & Research (NCETER-2021) will be held on 29-30th June 2021 on virtual platform (Google Meet). This conference will provide a leading edge, scholarly forum for researchers, engineers, and students alike to share their state-of-the-art research and developmental work in the broad areas of pervasive Science & Engineering. This conference will provide unique and rational opportunities to all the attendees, research scholars, students from different domains to exchange and share their experiences and research results on all aspects of Engineering and also encourage them to create a niche for themselves. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered, and solutions adopted

in the fields of Engineering. This event strives towards achieving excellence in the cutting edge of all the scholars from all the disciplines and tries to bridge the basic and advanced gap between their derived thoughts.
