1st International Conference on MULTIDISCIPLINARY SOLUTIONS FOR EMERGING TRENDS

April 25 & 26, 2025

MSET INTERNATIONAL
CONFERENCE
2025
Multidisciplinary Solutions for Emerging Trends

Organized by
SCHOOL OF ENGINEERING AND TECHNOLOGY

Conference Overview

Emerging trends and global challenges such as technological advancements, climate change, economic inequality, healthcare disparities, and cybersecurity threats are reshaping the world. These interconnected challenges demand multidisciplinary approaches, integrating expertise from technology, science, engineering, social sciences and economics.

The conference aims to explore innovative and sustainable solutions that transcend single-discipline limitations. It serves as a platform for academics, industry leaders, professionals and students to exchange knowledge. By fostering cross-sector partnerships, the event seeks to address complex global issues and create impactful outcomes for a better future.

Conference Features

Keynote Addresses

Renowned experts will deliver thought-provoking insights into the future of interdisciplinary problem-solving and the critical role of innovation in addressing global challenges.

Technical Sessions

In-depth discussions will focus on the cutting-edge innovations and emerging trends in technology, engineering, and social sciences that are reshaping the future of problem-solving.

Expert Panels

Multidisciplinary panels will bring together thoughtful leaders from diverse fields to discuss actionable solutions to complex global issues.
